Summary

Computer Science and Design undergraduate with experience in full-stack web development and AI-powered applications. Built and deployed projects using React.js, Node.js, MongoDB, Firebase, and Python. software engineering with leadership experience in college entrepreneurship initiatives. Seeking software development and internship opportunities.

Education

MET Bhujbal Knowledge City	7.6
B.tech ,Computer Science and Design	Nashik,Maharashtra • 2023-2027

Experience

E-Cell MET	Nashik
PR & OUTREACH LEAD	8/2024 - Present
Event' Team Member	2/2024 - 8/ 2024

Contributed to Entrepreneurship Cell by managing public relations, outreach, and event coordination. Executed event planning and management, ensuring effective communication with participants and teams. Oversaw **digital communication** across emails, Instagram DMs, WhatsApp, and other online platforms

Acrylic Solution Pvt. Ltd.	Nashik
Full Stack Web Development Intern	3/2025 -/102025

Led responsive web applications using React.js, JavaScript, HTML, CSS, MongoDB, and SQL.

Worked as a Team Lead Intern, coordinating with developers on real-world projects.

Focused on practical implementation, logic building, and project-based learning.

Utilized AI-aided development tools to improve productivity and problem-solving

Projects

Hate Speech Detection System – NLP & ML-Based Web Application

- Developed a hate speech detection web application as a learning-focused project using NLP and machine learning.
- Integrated traditional ML models and transformer-based embeddings with guidance from documentation and AI-Supported tools.
- Developed a web-based UI using NiceGUI for live predictions and analytics.
- Learned end-to-end workflow including data preprocessing, model inference, and deployment.
- Deployed the application on Render for live testing and demonstration.

RealityCheck AI

- Designed and deployed a full-stack digital risk intelligence dashboard using **React**, **Express**, **Tailwind CSS**, and **MongoDB Atlas**.
- Leveraged **Google Gemini API** (Gemini 2.5 Flash) to parse and analyze unstructured scam messages, providing detailed social engineering breakdown and automated remediation steps.
- Built a companion **Chrome Extension (Manifest V3)** that runs real-time website safety checks
- Deployed full-stack application on Render.

Skills

- Frontend**
React.js, Vite, Tailwind CSS, Framer Motion, HTML5
- Backend**
Node.js, Express.js, REST APIs, CORS
- Tools**
Render, CI/CD, Git, GitHub, Postman
- Database**
MongoDB, SQL, Firebase
